- Practice requires exercise, repetition that produces greater strength, abilities and skill with use.

# Journey Preparation 5

- Natural eyes – light reflected from an object is focused through the lens to form an upside down image on the retina that goes along the optic nerve as electrical signals and is interpreted by our brains
- We have learnt to be spatially aware of the physical world

# Journey Preparation 5

# Journey Preparation 5

- Natural ear receive pressure waves from air that vibrate the ear drum and that is passed by bones in fluid to be interpreted by the brain
- We have learnt to interpret those pressure waves as sound and language

# Journey Preparation 5

# Journey Preparation 5

- Our consciousness is a series of electrical impulses in our synapses passing along neural pathways that brain interprets as thoughts
- We have learnt to interpret those signals

# Journey Preparation 5

These wonderful electrical cells process and bring to our attention everything we do, think, feel, and experience

- Passive or active receiver
- Learn how to be an active receiver

# Journey Preparation 5

# Journey Preparation 5

# Journey Preparation 5

- The ear and eyes have the abilities to hear and see range of wavelengths from Hz sound to nm light
- The spirit is capable of discerning wavelengths that are not delectable by our natural ears and eyes.
- Spirit is able to interpret and describe what it perceives

# Journey Preparation 5

- Natural eyes, Eyes of your heart, Eyes of your spirit
- Signals are passed to the brain so we are able to understand and distinguish between spirits
- See and hear and engage in other realms or dimensions
- Both within our souls and spirits and in the external dimensions around us

- TARDIS bigger on the inside and can grow and expand
- Your soul is also a real dimensional place that you can engage God in

# Journey Preparation 5

- Our whole body vibrates at a frequency.
- Our body is made up of 68% water & our brain is 80% water.
- Water has the capacity to transmit vibrations e.g. sound frequencies 4x faster than air
- We receive vibrational frequencies both within and from without

# Journey Preparation 5

- The ear is continually vibrating and is sensitive to changes in frequency it is connected to nearly every organ of the body via audio nerves.
- Our whole body is like a detector and amplifier of frequency.
- Our spirit can become sensitive to what God is saying and to seeing what God and the enemy is doing in the dimensions around us.

# Journey Preparation 5

- Room is filled with signals, sound and light frequencies that cannot be heard or seen by our natural eyes and ears
- Our spirit & Soul can tune into to see, hear, feel what our body can't
- Our brain interprets the signals and decodes them so we can experience

# Journey Preparation 5

- Feel or sense the atmosphere
- Cut the atmosphere with a knife

- When your memories are greater than your dreams you're already dying.

# Journey Preparation 5

- God communicates through spontaneous flow through the spirit
- Spirit sensations are received as a spontaneous flow to soul/heart
- When we relax, more blood flows to the right hemisphere; thus, a relaxed person can more readily access right-brain functions.
- When we seek God, divine revelation flows through the soul from the spirit to our conscious understanding

# Journey Preparation 5

- God's language
- Flow of thoughts, pictures, words, impressions, perception
- Received and interpreted in our brains
- On the screen of our imagination

# Journey Preparation 5
