# Transformation 17

DNA

# Prophetic Timetable

Acts 2 Wine, Fire, Wind

Early Rain – Latter Rain

Former Glory – Latter Glory

Wine 1993/4 all caused church warfare

Fire Pensacola 1995 Flickers

Wind Lakeland 2008 Breeze

LAST DAY

DAY OF RESURRECTION & JUDGMENT

# Transformation 17

- Rom 12:1 Therefore I urge you, brethren, **by the mercies of God**, to **present** your bodies a **living and holy sacrifice**, acceptable to God, *which is* your spiritual service of worship. <sup>2</sup> And **do not be conformed to this world**, but be **transformed** by the **renewing** of your **mind**, so that you may prove what the **will of God** is, that which is good and acceptable and perfect.

# Transformation 17

- Matt 17:2 And He was **transfigured** before them; and His face shone like the sun, and His garments became as white as light.
- Spirit, soul and body transformation
- Dividing or separating bone and marrow – genetic level
- Deepest level of transformation

# Transformation 17

- 2 Cor 6:18 “And I will be a father to you, And you shall be **sons and daughters** to Me,” Says the Lord Almighty.
- 2 Cor 7:1 Therefore, having these promises, beloved, let us **cleanse ourselves from all defilement of flesh and spirit**, perfecting holiness in the fear of God.

# Transformation 17

# Transformation 17

- **DNA** stands for **d**eoxyribo**n**ucleic **a**cid.
- The structure of DNA is like a twisted ladder – Double helix
- The rungs of the ladder are made up of “bases”
- There are approximately 3 billion (3,000,000,000) chemical letters (otherwise known as bases) in the DNA code in every cell in the body.

# Transformation 17

- If unwound and tied together, the strands of DNA in one cell would stretch almost six feet but would be only 50 trillionths of an inch wide.
- If all the DNA in your body was put end to end, it would reach to the sun and back over 600 times

# Transformation 17

- It would take a person typing 60 words per minute, eight hours a day, around 50 years to type the human genome.
- If all three billion letters in the human genome were stacked one millimetre apart, they would reach a height 7,000 times the height of the Empire State Building.
- Our entire DNA sequence would fill 200 1,000-page telephone directories.

# Transformation 17

- Humans have roughly 100,000,000,000,000 (100 trillion cells).
- Chromosomal or nuclear DNA is DNA found in the nucleus of cells.
- Humans have 46 chromosomes.
- DNA, chromosomes, genes?

# Transformation 17

- Sections of DNA that code for proteins are called genes. The complete set of genetic information for an organism 20,000-25,000 genes is called the genome.
- Genes are pieces of DNA passed from parent to offspring in their chromosomes that contain hereditary information.

# Transformation 17

- On average, each chromosome has about 65 million DNA molecules.
- Between genes, along the length of a chromosome, there are long stretches of DNA, which had no known function.
- A chromosome contains about 1000 genes.
- Humans have approximately 30,000 different genes spread out over the 46 chromosomes.

# Transformation 17

- Our 46 chromosomes are arranged in 23 pairs.
- We inherit one copy of the pair from our Mum and one from our Dad.
- Identical twins share 100% of their genes.
- Siblings share 50% of their genes.
- A parent and child share 50% of their genes.

# Transformation 17

- You get half your genes from your mum and half from your dad, just as they got half each from their parents, and back and back generation upon generation.
- Therefore you carry a record of all past generations back to Adam and Eve

# Transformation 17

- Only 2% of our DNA is coded and 98% was considered junk or alien DNA because they couldn't figure out what it was for
- DNA is not only responsible for the construction of our body, but also serves as data storage and in communication.
- CERN 100 tapes Petabytes ( $10^{15}$ ) - 41 grams DNA
- Cells have memory storage abilities

# Transformation 17

- Russian scientists found that the genetic code, especially in the “junk” 98%, follows the same rules as all our human languages.
- Comparing the rules of syntax (the way in which words are put together to form phrases and sentences) and semantics (the study of meaning in language forms) and the basic rules of grammar.

# Transformation 17

- By exposing DNA to sound frequency patterns on a laser beam they influenced the DNA frequency and thus the genetic information itself.
- Living DNA substance will always react to language programmed on modulated laser rays and even to radio waves, if the proper frequencies are being used.
- By simply applying sound vibration and language through light the human body can be programmed by language, words and thoughts

# Transformation 17

- Depression, grief, sadness, anger, negativity and unforgiveness can actually program our DNA to produce sickness and disease in our cells
- Praise, joy, peace and forgiveness can program our DNA to produce healing, health and wholeness
- Healing anointed prayer and laying on hands release frequencies that can repair, restore and reprogram our DNA

# Transformation 17

- Healing
- Sound and frequencies applied can re-sequence DNA patterns
- Speaks words of faith, play sounds of heaven, lay on hands resonating and vibrating with heat and power
- Apply faith words to change and call things back into wholeness

# Transformation 17

- Matter is never destroyed, it just changes form
- Call it back into existence
- Lost limbs, lost hair etc.
- Direct things to change form e.g. water into wine
- Tumours or fat – command to dissipate

# Transformation 17

- Healing power
- Mix the grace of God (divine enabling strings of power that exists in the fabric of all our beings at a sub-atomic quantum level) with faith filled words of agreement to produce a charge of anointing power.
- Resonate at a frequency that can change things at a DNA genetic level

# Transformation 17

- 98% uncoded DNA sequences
- Contain latent switches that are waiting to be triggered
- What triggers them?
  - Nurture
  - Trauma
  - Environment
  - Sin

# Transformation 17

- Generational behaviour
- Christians' standards, morals and guidance based on love
- Non-Christians' instincts based on self-protection, self-preservation or self-gratification.
- What do you want to pass on?

# Transformation 17

- Case study 19<sup>th</sup> century 2 families
- Matt Jukes and Jonathan Edwards
- Matt was an atheist who married an unbeliever - traced 560 descendants
- 310 died as paupers
- 150 criminals - 7 murderers
- 100 drunkards
- More than half women were prostitutes
- Cost to society 100's millions

# Transformation 17

- Jonathan, a revivalist, married a believer – traced 1394 descendants
- 295 graduated college, 13 became college presidents and 65 professors
- 3 senators, 3 governors, many ambassadors
- 100 lawyers, 30 judges, 56 doctors
- 75 army or navy officers
- 80 held public office – 3 mayors, head US treasury official, vice president
- Cost to society zero, contribution to society immeasurable

# Transformation 17

- Nature and nurture etc – trigger genetic switches to turn on or off certain genes – predisposition to:
  - Disease – heart, cancer, diabetes, arthritis, liver, kidney
  - Mental health – depression etc.
  - Addictions – alcohol, chemicals, food, sexual

# Transformation 17

- Behaviours – sexuality, criminality, religious, occult
- Genetic factors waiting for triggers are not an excuse for licence
- God always makes a way to escape
- God desires to transform our lives
- Will we cooperate with Him?

# Transformation 17

- There is a solution
  - To be transformed from the genetic factors
  - To be conformed to the image and DNA of God
  - To be restored to wholeness
  - Power of encountering God's DNA in communion
  - Power of encountering the breath of God

# Transformation 17

- Of the 98% 'junk' DNA, up to 20% contains triggers or switches that can turn on or off genes' functions and abilities
- Are there triggers for God-like latent abilities or other supernatural abilities?
- Mutations or revelations?

# Transformation 17

- Enemy counterfeits real abilities that Jesus demonstrated – occult, astral projection, spiritual healing.
- Alphas Empathic ESP
- Heroes Fly, invisible, teleport, heal
- Superheroes Energy/matter conversion
- Mutants, X-men Telepathy, x-ray vision telekinesis
- Quantum abilities Matter manipulation

# Transformation 17

- Trans-dimensional vision
- Adam – lost bandwidth of perception
- Flood – lost more bandwidth, rainbow formed with only 7 colours
- Babel lost sound bandwidth abilities
- Say the 7 keys on piano A to G were the 7 colours of light we can see (the visible spectrum, 380 nm to 750 nm).
- If all remaining bandwidths were represented as keys on that keyboard, it would stretch to the moon

# Transformation 17

# Transformation 17

- Divine Nature Assimilated
- Revealed Nature Achieved
- Rom 8:28 And we know that God causes all things to work together for good to those who love God, to those who are called according to His purpose. <sup>29</sup> For those whom He foreknew, He also predestined to become **conformed to the image of His Son**, so that He would be the firstborn among many brethren; <sup>30</sup> and these whom He predestined, He also called; and these whom He **called**, He also **justified**; and these whom He justified, He also **glorified**

# Transformation 17

- Heb 4:12 For the word of God is living and active and sharper than any two-edged sword, and piercing as far as the division of **soul and spirit**, of both **joints and marrow**, and able to judge the **thoughts and intentions** of the heart.
- Restoration to wholeness

# Transformation 17

- Acts 3:20 and that He may send Jesus, the Christ appointed for you,<sup>21</sup> whom heaven must receive **until the period of restoration of all things** about which God spoke by the mouth of His holy **prophets** from ancient time.
- Restoration = nothing missing, nothing broken

# Transformation 17

- Strong's Dictionary: H5771 (**Iniquity**): perversity, that is, (moral) evil: Thus sin, when repeated against the knowledge of God, becomes transgression which, if it continues long enough, eventually becomes iniquity which perverts the flesh. This perversion changes the DNA/RNA structure of the "flesh" and "beliefs" or "attitudes" resulting in **genetic changes that are passed on from generation to generation.**

# Transformation 17

- Blood line and seed line iniquity enables the enemy to negatively influence our lives
- What is in my DNA waiting to be triggered and switched on?
- Does my DNA explain why I have a predisposition to certain patterns of behaviour, drawings, leanings?

# Transformation 17

- Sickness and disease?
- Patterns of bondage?
- Weaknesses?
- Serpent seed influences – Cain?
- Nephilim seed influences – angels?
- Familiar and familial spirits influences?
- Blocked supernatural abilities?

# Transformation 17

- Psa 139:23 **Search me** thoroughly , O God, and know my heart; **Try me** and know my anxious thoughts; <sup>24</sup> And **see if there be any hurtful way in me**, And lead me in the **everlasting way**.
- DNA of God, power of communion and the blood of Jesus
